# Courses SS2026

## Telecommunications Lab

Prof. Dr.-Ing. Thorsten Herfet

UNIVERSITÄT  
DES  
SAARLANDES

**SIC** Saarland Informatics  
Campus

## Internet Transport

- Core- / Advanced Lecture 9CP (4L2T)
  - Tuesdays 14:15–15:45, Wednesdays 12:15–13:45, **Start April 7<sup>th</sup>**
  - Lectures & Tutorials: **C6 3 9.05**
  - Assignments & Quizzes: **UdS-Moodle** (100% paperless)
- All major components of Internet Transport
  - From MAC- to Application-Layer, Focus on Latency- and Resilience-Awareness
  - Congestion- & Flow Control, Adaptive Hybrid-ARQ, Deep Learning for Error Coding
- ...and the underlying mathematical foundations
  - Markov-Chains, Gilbert-Elliot Erasure Channel Models, MDS- and LDPC-Coding, Residual Error Rate and Delay-Budget Calculation
- **Registration mandatory via Moodle:**  
<https://moodle.uni-saarland.de/enrol/index.php?id=11986>
  - You should also join the MS-Teams Team for discussions!
  - Information is also on the Computer Science CMS!
